# ways

What happens when a university has a global reputation for academic excellence yet remains open to any student eager to learn? This combination creates an incredible, worldwide demand for an ASU degree.

ASU has become one of the largest and most impactful communities of students and experts in the world. We are constantly innovating with new degree programs, cutting-edge learning methods and welcoming spaces to foster growth and discovery.

For learners driven to gain new skills, you can explore your potential and make a positive contribution to the world.

**You belong here for your next chapter.**

### Try before you enroll

Learners can take first-year ASU college courses online while still in high school or before enrolling at ASU, and **pay for credit only if they're happy with the grade**. The course credit will count toward their ASU degree.

[ea.asu.edu](https://ea.asu.edu)

# Change your future, not your schedule

**At ASU, learners can now customize how they learn, what they learn and the speed at which they learn.**

See all the ways you can make your next academic experience uniquely your own.

**The college experience you know**

Daytime weekday courses, in-person on campus.

**The flexibility you need**

Evening and weekend courses, in-person on campus.

**Learn from wherever you are**

With some courses online, you can learn in real time with classmates, or take classes where you set the pace and learn when it's convenient for you.

**The best of both worlds**

Some degree programs offer a hybrid approach that combines in-person and online learning.

**A master's degree can help future-proof your career** in a rapidly changing world. There are many benefits to pursuing a graduate degree, from advancing your career, to growing your professional network, to potentially increasing your earnings. There's also the satisfaction and joy of learning new knowledge and gaining a better understanding of our world.

Studying for a master's degree can feel out of reach for those balancing work, family, or both. At ASU, we make it more accessible with accelerated programs, flexible schedules, hybrid learning, and online programs — empowering you to advance your education without putting life on hold.

# Master the next level

## Accelerated options

Students in this advanced simulation health lab are in an accelerated master's program designed to allow individuals with a non-nursing bachelor's degree to transition into the in-demand nursing profession.

## Open doors to new career opportunities

Graduate school can expand your world and your network. Meet peers, internationally renowned faculty and more in the classes you take and through the conferences you attend. You never know where your next opportunity or great idea will come from.

## Become known as a master in your field

Knowledge is power. Learning from and working with the leaders in your field will empower you with a new level of confidence that could forever change the trajectory of your career.

**Many of ASU's most in-demand graduate programs are still accepting applicants for fall.**

ASU has options for those looking to advance their careers in health care, nursing, technology, criminal justice, project management, sustainability and more.

– GLOBAL EMPLOYABILITY UNIVERSITY RANKING AND SURVEY, 2025

A man with short brown hair, wearing safety glasses and a white lab coat over a blue patterned shirt, is looking upwards and to the left. He is holding a small green object in his right hand. The background is a laboratory setting with various pipes and equipment.

## A love for math and science, fostered by great faculty, now applied in aerospace

Natalie Figueroa, '24 BS in physics, was in her first year at ASU in Barrett, The Honors College when her mentors encouraged her to become a fellow in Research Professor Ivan Ermanoski's lab in the College of Global Futures working on a thermochemical reactor for hydrogen production. After a semester, she was hired as his research assistant because of the quality of her work. Her lab experience helped prepare her for a career in science and engineering.

She is now an engineer at Collins Aerospace, where she has helped create a troubleshooting bot, using machine learning to help employees do their test work more effectively.

"Ever since I was a kid, [growing up in Goodyear] I was like ASU was the place to go," she says. As a first-generation student, she was unsure about how to become an engineer but says her professors helped her find her path.

# into tech

## **The newest master's degrees, outstanding faculty and the best arts facilities in the world**

**ASU has made a launch platform for the future of creative jobs**

Last fall, students and faculty from the Herberger Institute for Design and the Arts presented cutting-edge projects at the MIXibition at the Media and Immersive eXperience (MIX) Center.

Jialong Xu, '22 BA in communication and a graduate student in the Media Arts and Sciences program in the School of Arts, Media and Engineering, showcased a scuba diving experience game for the Apple Vision Pro. "It's truly inspiring to see how this event fosters innovation and transforms creative visions into reality," he says.

The college's new master's degree programs, MSD in design (experience design) and MS in media arts and sciences (extended reality technologies), prepare students for careers in digital gaming, extended and virtual realities, interactive environments, themed entertainment, and other forms of immersive storytelling.

"Every major tech company is betting billions of dollars on this future, and our degrees put students at that forefront," says Nick Pilarski, interim MIX Center director and associate professor.

Learn more at [herbergerinstitute.asu.edu/degree-programs/mix-center-graduate-degrees](https://herbergerinstitute.asu.edu/degree-programs/mix-center-graduate-degrees).

In ASU MIX Center studios, Sian Proctor demonstrates an augmented reality project of what it was like to see Earth from her spaceflight.

# Your place to grow

## Tempe campus

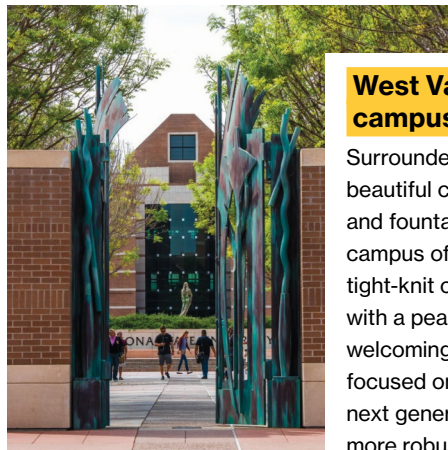

ASU's historic campus is home to multidisciplinary research in first-rate research centers, innovative VR learning labs and the university's Big 12 sports, with an energetic, friendly atmosphere.

## Downtown Phoenix campus

Situated near health care, journalism, government, public service, arts and other professional connections, this campus offers a big-city feel in a career-focused environment.

## West Valley campus

Surrounded by beautiful courtyards and fountains, this campus offers a tight-knit community with a peaceful, welcoming vibe that is focused on training the next generation of a more robust workforce.

**Want to see what ASU's  
campuses look like today?**

Scan with your smartphone camera  
to tour ASU virtually.

### **Polytechnic campus**

Located in the vibrant East Valley, this campus offers the ultimate “think, do, learn” experience with cutting-edge facilities and project-based learning through strong industry partnerships.

## **ASU is ‘one university in many places’**

ASU connects you to world-class faculty, top-ranked programs and state-of-the-art learning environments to help you succeed at any stage of your lifelong learning journey. Each of the four distinctive campuses throughout metropolitan Phoenix provides access to the university’s strength and innovation, and all offer attributes and focuses to meet the needs of any learner.

# Unforget experiences

## Steeped in history, ready for the future

Graduation at ASU is a joyous and momentous occasion – the culmination of years of hard work, workforce preparation and personal growth. The iconic campus locations you remember – like the 100-year-old Palm Walk and Old Main – are thriving. Today, they're the backdrops for the memories of a new generation of learners, participating in the same time-honored Sun Devil traditions you did when you were last here. The places you remember have been joined by new places to live, learn and socialize with 21st-century technology, including virtual reality learning labs that can take students anywhere to learn anything.

Get to know today's ASU at  
[asu.edu/about](https://asu.edu/about).

**Cormick McCune, '24 BS in construction management and technology; Nathan Cross, '24 BS in electrical engineering; Matthew Janeway, '24 BA in business communication; and Anthony Ellero, '24 BS in business entrepreneurship, celebrate their graduation at Old Main on the Tempe campus.**

# Supporting careers from Day 1

Whether you're just starting out or ready to take the next step in a long career, ASU's numerous career resources will help you thrive

## Ira A. Fulton Schools of Engineering

### Real-world projects and preparation even for first-year students

Research with faculty at the top of their fields, internships at leading companies and mentorship by industry experts all give students a competitive edge in the job market. At the Innovation Showcase, even first-year students can present the ideas they've conceptualized with guidance from industry professionals, paving the way to valuable career opportunities.

[career.engineering.asu.edu](https://career.engineering.asu.edu)

## W. P. Carey School of Business

### Setting students up for success in business, logistics, finance and more

At W. P. Carey, students go through a guided process of launching fulfilling careers. In 2024, the college hosted more than 185 employers and provided over 500,000 touchpoints for students and alums to engage. In addition, the college offers the Cooperative Education Program, a three- to six-month learning opportunity for undergrads to work full time with a partner company to gain valuable skills.

[career.wpcarey.asu.edu](https://career.wpcarey.asu.edu)

## Herberger Institute for Design and the Arts

### Landing jobs in the arts through career support for all students

Advising, mentoring, internships and connections — Herberger provides what is needed to succeed in the creative arts. Many faculty members work in their fields, and they readily share their industry connections to help students land internships and jobs in creative industries.

[students.herbergerinstitute.asu.edu/creative-career-services](https://students.herbergerinstitute.asu.edu/creative-career-services)

## Walter Cronkite School of Journalism and Mass Communication

### Helping students secure jobs in journalism

With comprehensive professional branding and career planning services, internships and industry connections, the school prepares students for success. In 2024, nearly 400 students completed internships, and the school hosted 13 different recruiters in 22 visits.

[cronkite.asu.edu/students/career-services](https://cronkite.asu.edu/students/career-services)

## The College of Liberal Arts and Sciences

### Tailored career support for all students

The Futures Initiative is built to provide support for students in every phase of their college journey. Through career counseling services like Pre-Health and Pre-Law advising, as well as internship and research support, more than 30,000 students at The College graduate as strong candidates entering the job market.

[thecollege.asu.edu/student-life/careers](https://thecollege.asu.edu/student-life/careers)

## Barrett, The Honors College

### Preparation in a top-ranked honors college

Global Honors Flex gives students, including first-year students, the chance to study abroad. The Life Prep program builds essential professional and personal skills. Barrett students work with ASU faculty and are frequently top choices by employers.

[barretthonors.asu.edu](https://barretthonors.asu.edu)

A photograph of Jovita Dela Cruz, a young woman with long, wavy brown hair and red-rimmed glasses, wearing a dark blue blazer over a white top. She is smiling and looking towards a man whose back is to the camera. They are standing at a red table with informational brochures. In the background, other people are visible in a well-lit room with wood-paneled walls.

**Jovita Dela Cruz, '23 Bachelor of Global Management, '24 Master of Global Management, speaks with a recruiter about career options at Futures Night for Military-Connected Learners sponsored by ASU's Pat Tillman Veterans Center.**

## **Helping student veterans gain the upper hand in employment**

A military futures expert told a group of student veterans that 77% of all jobs soon will be impacted or altered by AI and that their positions will change every two and a half years due to a variety of factors. However, there are steps they can take to “job proof” themselves.

“Your brand is your last name, and it means you should be able to give employers five reasons why they should hire you. These are the five values that you represent ... that’s your brand,” said Mike Schindler, a U.S. Navy veteran, an award-winning author and speaker at the Pat Tillman Veterans Center’s Futures Night at ASU, which connects veterans with recruiters.

## Memorable fan experiences for all ages

Whether you attended every game while at ASU or have not yet attended, ASU athletics competition has something to offer everyone. From the football tailgates to the new restaurants and food options in Novus Place, ASU's sports are drawing fans of all ages.

Today's Game Day experience has been revamped to be even better. Sample highlights include amazing food featuring signature items for each game:

- Burnt end street tacos for the KU game
- Devil Dogs: footlong Sonoran-style hot dogs
- Inferno Fries: fries loaded with cheese curds
- Value menu expanded
- Vegan and vegetarian options

More after-game options have been expanded on the Tempe campus in the Novus Innovation Corridor, including North Italia, Blanco Cocina + Cantina, Flower Child, Blue Sushi Sake Grill, Over Easy and more.

**"The quality of games and excitement surrounding the football team is amazing. We capped the year with a family trip to the Peach Bowl. My 16-year-old son is not a big sports guy but was going crazy during the game."**

— TYLER GREEN, '97 BS IN ECONOMICS,  
FATHER OF TWO

At ASU, we've been building new ways of engaging and coming together.

# Gain an edge in the job market

**by studying at the #2 in the U.S.  
public university for graduate employment**

**ASU ahead of UCLA, University of Michigan and Purdue  
—Global Employability University Ranking and Survey, 2025**

## **Many ways to learn**

ASU has on-campus, flexible, accelerated and online ways to learn from pre-K–12 to college, master's degrees and beyond.

**Explore more at [asu.edu](https://asu.edu).**

## **Start an undergraduate or master's degree this fall semester**

It's not too late to start a master's degree or encourage a learner to apply for admission.
